

Dear brothers and sisters, dear supporters.

All this time we have pray for you every day that God's protection will be with you and your family. It has been not an easy time for all of us.

We are so thankful to God for your commitment in prayers and financial support. The Lord bless you all! Please keep praying and supporting us financially.

Our children's home has been absolutely under God's protection all this time. The children are all well and healthy, we just finished the very difficult schooling year. As you know from the last newsletter we needed to buy laptops and smartphones and printers for the children we need to meet another £3,500 to pay this bill. Please pray for us to meet this urgent financial need.

On the 1st of June the president of Albania came to visit our children's home. It was such a privilege for us to have the head of the state visiting as. He was impressed with the conditions of the children and he even invited all of us to go to the presidential residence for lunch during this month. Among the other things he did say: "I appreciate 'New Beginnings' children's home which in the 25 years of its operation has helped children, orphans or social orphans, who come from families with major social or financial problems". He did bring some books for the children as gifts. We prepared a small welcoming for him with drinks and sweets.

Thank you all for your love and support.
Love in Christ.

Paulin Vilajeti

The President of Albania handing out presents to the children of the home.
