

Sermon Discussion

21 June 2020

Read Habakkuk 3:1-15 together

Starting Off

What musical genre and/or artist do you listen to the most? When it comes to worship music, are there any specific songs or hymns that have helped you better connect with God?

Dig Deeper

1. While it can be easy to celebrate and worship God when things are going well, it is often very hard to worship God when the things we're yearning and hoping for do not come to pass. How does this statement compare to your general experience with worshipping God?
2. Trying circumstances – like poverty, sickness, strife, and loss – are often used by God to draw us closer to Him. Do you have a story of how God met you in a season of distress and breathed new life into your reasons for and practice of worshipping Him? If you're willing, share about that experience with your group members.
3. How would you explain mercy to someone in light of God's history of saving His people?
4. What specifically do we need to remind ourselves about our trials in light of Jesus' death and resurrection?
5. What are the best ways of gently reminding each other about our delivering God?

Application & Prayer

We've talked about what it means to worship God. During your time of prayer, we encourage you to move from talking about worship together to actually worshipping God together! Most online meeting platforms offer the ability to share your screen.

For a tutorial on how to do this with Zoom, go here:

Select and play a worship song and sing it together. Below are ideas to get you started, but feel free to choose your own.
